

Journey back in time to nature's masterpiece

A pristine sanctuary of famously fearless animals, many that can be found nowhere else on Earth

Come experience the Galápagos from an insider's perspective. Over the years, we have developed an intimate understanding of how to form meaningful connections between travellers and this legendary archipelago, where each island exudes its own charm.

The volcanic moonscape of Bartolomé is home to lava lizards and blue-footed boobies. The obelisk-like Kicker Rock is blanketed with nesting seabirds and lazing sea lions. On Española, a blowhole spouts water 100 feet into the air, and Floreana has a post office built by whalers.

From giant tortoises and flightless cormorants to the only penguins found north of the equator, these unique islands brim with incredible wildlife that you can discover on a choice of two seven-day itineraries. Accompanied by expert guides, hike through lava fields, swim in tidal lagoons and snorkel in volcanic craters.

After each day's adventures, return to the comfort of your Silversea ship to share stories and reflect on your once-in-alifetime experiences.
